

Hearing Care Assistant Programme (HCA)

Delivered
in partnership with
Starkey Laboratories

Climb the career development ladder with our professional courses

Mary Hare offers a wide range of courses and training opportunities for anyone working in the field of deaf education or audiology, founded on more than 100 years of experience of working with profoundly deaf young people.

Elements of the course are BSA short course accredited and all aspects of the course are aimed to support the members of your team currently employed within the audiology sector and who wish to develop their clinical skills as an Audiology Assistant. Practical skills training is provided according to current BSA/BAA best practice guidelines. The programme is constructed as a work-based learning qualification where a portfolio is built on procedural tasks completed under the supervision of their work-based supervisor.

HEARING CARE ASSISTANT PROGRAMME (HCA)

The training is being delivered in conjunction with Starkey Laboratories and offers a unique opportunity to have a manufacturing site visit, giving attendees the benefit of seeing the latest manufacturing processes.
